Subject: EHCSS Website is now on the Internet

Good news! The site is now on production:

<http://www.ehcass-science.com>

I have not fully checked it out but will do so at home this evening and again first thing in the morning.

Subject: FW: Status of EHCSS Website

FYI - I have checked on the status again.
We are still waiting for work to be performed on the AT&T side.
IS is escalating it to the next level to determine why the work has not been done.

At this point, I do not think we will see the site in production today.
If I receive an update before the end of day, I will forward to you. Otherwise, I will follow up again first thing Tuesday morning.

FYI - I have asked for a status on the website.
The Webmaster group has completed the file transfer; we are waiting on AT&T to bring up the site.

I will let you know as soon as I hear something.
